“ I always try to target the best exchange rate each month and reserve that for my transfer and Moneycorp makes that very easy for me to do. ”

- MICHAEL HOUGHTON

“ I would definitely recommend Moneycorp's services, the whole process was easy, everyone I dealt with was extremely helpful, friendly and professional. ”

- THE CLARKES

“ My wife and I thoroughly enjoy living in two properties overseas, one in Florida, and the other in the Algarve, Portugal. Moneycorp was far better than using a bank, absolutely hassle-free. I was very happy with the process of the deal and all staff was friendly and efficient. All I can say is that I was very pleased. ”

- THE KENTS

Securing your rate now and for the future

Sending or receiving money right away is very straightforward.

Simply agree an exchange rate online and we'll take care of the rest. This is called a Spot Contract.

If your payment isn't for today, there are other FX products that will help you make the most of fast-moving currency markets.

FORWARD CONTRACT

Timing is crucial when it comes to securing the most competitive exchange rate. Foreign exchange markets are unpredictable, which is why being able to control the rate you receive can make your money go much further. A Forward Contract allows you to buy or sell currency on a future date at an agreed-upon price, sheltering you against potential exchange rate movements. You can lock in a rate for up to two years, giving you certainty over future payments and protection from exchange rate volatility.

REGULAR PAYMENT PLAN

If you need to make recurring payments abroad, perhaps for a mortgage, salary or pension, a simple Regular Payment Plan can help. Tell us how much you send or receive, and how often you want to make these payments, and we will schedule the transfers to suit your needs. We will take care of your payment and get your money where it needs to be.

MRS SMITH'S MONEYCORP STORY

- 1** On 5 May 2019 Mrs Smith agreed to buy a property in Northern Italy for €280,000. To secure the property, she agreed to pay an initial deposit of 10% and the remaining 90% on completion in 3 months' time.
- 2** When paying the deposit on 5 May 2019, GBP/EUR closed at 1.17511, meaning the deposit cost £23,827 and at that rate, the final 90% of the property payment would cost £214,448. By the time the final payment was due on 10 August 2019, the GBP/EUR rate had dropped to a low of 1.06466, meaning the final payment would now cost £236,695 – a difference of £22,247.
- 3** Fortunately, Mrs Smith had locked in an exchange rate of 1.1751 when she paid the deposit using a Forward Contract. This meant that the final payment cost £215,182, saving £21,513 compared to the exchange rate on the day and covering almost all of the difference between the two rates.
- 4** Mrs Smith then had the remaining payments organised via a Regular Payment Plan over the course of the next 12 weeks. Without the hassle of having to make the transfer every time, it was the perfect way to budget her finances.

Tools to help you get the best rate possible

International payments made hassle-free with bespoke tools to help make the most of your money.

MARKET ORDERS

Choose a rate you would like to target and we will do the hard work for you with a Market Order. If the market reaches your desired rate, we will exchange your currency when your target rate is achieved 24 hours a day, 5 days a week, meaning you won't miss out overnight or when you are busy with work or family.

TRACK A RATE

We will send you an alert via email or SMS, letting you know when a currency reaches the rate you chose, meaning you can take advantage of it without needing to check the constantly moving currency markets.

MS ANDREWS' MONEYPYR STORY

1

We assisted Ms Andrews' move to Canada for a new role within her company.

2

By working with our team of exchange experts, she was able to organise a transfer of her savings to a Canadian bank account to help her get settled in.

3

Ms Andrews tracked the rates with email alerts and placed a Market Order to limit the risk of fluctuations in the GBP/CAD exchange rate.

4

By using these tools, she was able to mitigate the risk of currency fluctuations and save time on currency transfers.

Partnering for success

We're proud to work with over 3,000 partners – ranging from small privately-owned firms to multinationals – to provide their members with great exchange rates and hedging strategies to make foreign exchange and international payments a simple and reliable process.
